Projects

Jalso Web Admin Panel: Streamlining Music Management

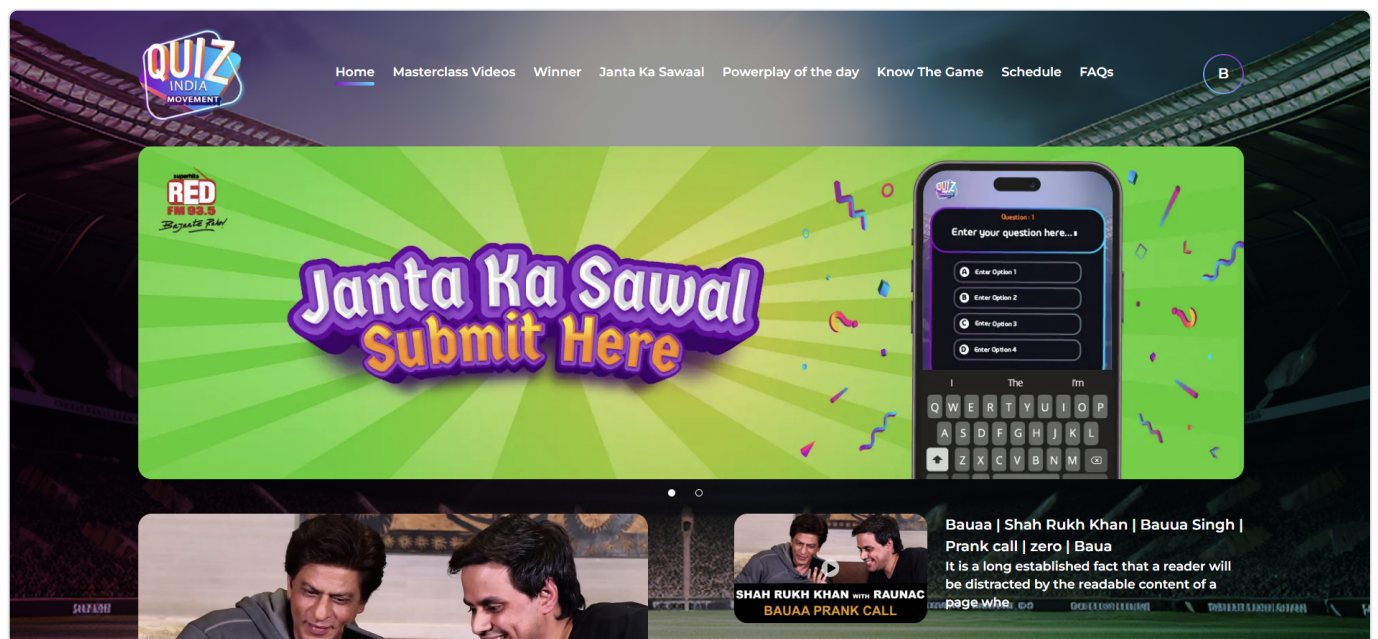

I created the comprehensive Jalso Web Admin Panel using ReactJS and NodeJS. This panel simplifies music streaming management, offering intuitive controls for content, users, advertising, sections, reports, and notifications.

Key Features:

- Insightful Dashboard: Real-time data for informed decisions.
- Content Management: Organize albums, songs, artists, and categories effortlessly.
- User Control: Manage app and admin users seamlessly.
- Strategic Advertising: Implement targeted ad campaigns.
- Real-time Engagement: Foster user interaction with instant notifications.

Quiz India Movement : Quiz

I designed and built the entire "Quiz India Movement" web application using ReactJS, NextJS and Tailwind CSS. This interactive platform offers an array of engaging features, including:

Key Features:

- Home: A welcoming entry point to explore the platform.
- Masterclass Videos: A library of masterclass video.
- Winner: Recognizing and celebrating achievements.
- Janta Ka Sawaal: An interactive forum for public questions.
- Powerplay of the Day: Engaging users with daily quizzes.
- Know The Game: An educational section.
- Schedule: Keeping users informed.
- FAQs: Providing answers to common queries.
